

Document Management System

Complete and secure document management solution

Cloudhaz DMS is a powerful, cloud-based document management solution that improves productivity and automates time-critical business processes. Users can index, store, retrieve, route and share documents. This intuitive software offers powerful document management features, which can be used by companies of all sizes.

- ▶ Access documents remotely
- ▶ Work smarter with documents
- ▶ Organize documents based on how you do business
- ▶ Accelerate document approval processes
- ▶ Build your knowledge base
- ▶ Manage document metadata
- ▶ Manage meeting preparation and notes
- ▶ Foster collaboration amongst employees, without losing control
- ▶ Minimize capital expenditure (SaaS)
- ▶ Assure service availability

Where is the content that runs your business? Is it centrally managed or is it spread across multiple endpoints and network file shares? Cloudhaz provides document management services that allow organizations to manage electronic files and automate document-centric business processes.

Does your [staff](#) often ask questions like:

- Should I save the proposal in the sales folder or in the customers folder?
- Where did the marketing team save the latest presentation?

If so, Cloudhaz DMS will make your life easier, by eliminating those impossible-to-manage folders. Just save to the vault and open from the vault. You can then find and display files based on tags or metadata, such as all invoices by month, all purchase orders by customer or all files related to a certain customer or project. It is dynamic and instantaneous.

Organizations produce piles of documents, images and other information electronically. Locating this information is a time-consuming task, since users tend to save documents on their own computers. Nobody knows what information is across the company and what information is needed.

Why use Cloudhaz DMS?

Cloudhaz DMS builds a highly valuable repository of corporate information in order to facilitate knowledge creation and improve business decision-making. The results are:

- [Improved productivity](#) through shared practices
- Greater [cost efficiencies](#)
- Better [customer relations](#)
- Faster [sales cycles](#)
- Shortened product [time-to-market](#) and better [decision-making](#)

Cloud service

Unlike traditional content management solutions, we do not come with a hefty price tag or a complex implementation cycle. Furthermore, we can offer you the advantages of the Cloud:

- Reduced costs for infrastructure, applications, storage
- Automated maintenance
- Mobile access
- Adaptable, configurable and easy to scale

User interface

At Cloudhaz, simplicity is an important aspect of every product we create. We have invested heavily in streamlining our user interface. This way, you will not have to reach for the manual every time you need to upload a file or submit a change. So, you are never more than a couple clicks from completing your task.

Looking to put content to work? It is incredibly easy with [Cloudhaz DMS](#).
